

Carbon County Quality Improvement Committee

Meeting Dates:	October 15, 2009 November 19, 2009 – Cancelled due to training held on same date. Team felt that it would be better to not reschedule this month due to holidays. December, 2009 – QI Summit	Review and Action Plan	Follow-up
Dash Board Items:	Staff Retention and Recognition	.	-QI committee voted to keep employee recognition as one of our goals as retention is no longer a problem at this time. - Team will continue to provide ideas as they find them for this reward.
	Youth Forum/Dealing with Adolescent Foster Children and Communication with Adults		
	Placement Stability		
	Foster Parent Retention and Stability	October – Discussion was held regarding how many children a foster parent can have in their home, and variances. It was discovered that there is a law stating how many children you can have in your home, so it would require a statute change.	
	Substance Abuse	October – Teams identified workers who will pilot this. Data will be gathered and shared with the team in six months.	Continue to follow up with data collection regarding UA proposal which was approved and accepted by region director.
	Transition to Adult Living	October – TAL specialist continues to update us regarding the upcoming immersion event held in conjunction with a TAL summit. Homeless project was discussed, more information will be provided on this in January meeting.	
Public Relations:		October 15, 2009 - New ecclesiastical member joined QIC, and attended the QI summit in December along with 3 other member of the QI.	
Data Reviewed:		October 15, 2009 – DV coordinator came to discuss some questions that the team had based on the CPS data reviewed prior months.
